INDEPENDENT AUDITOR'S REPORT

Board of Fire Commissioners
Jackson Board of Fire Commissioners No. 4:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities of each major fund and the aggregate remaining fund information of the Jackson Board of Fire Commissioners No. 4, County of Ocean, State of New Jersey, as of and for the year ended December 31, 2014, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and in compliance with audit standards prescribed by the Local Finance Board and by the Division of Local Government Services, Department of Community Affairs, State of New Jersey. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Jackson Board of Fire Commissioners No. 4, County of Ocean, State of New Jersey, as of December 31, 2014, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 6 through 15 and 40 through 41 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Jackson Board of Fire Commissioners No. 4's basic financial statements. The accompanying comparative totals for December 31, 2013 are presented for purposes of additional analysis and are not a required part of the financial statements. The comparative totals have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated February 26, 2015 on our consideration of the Jackson Board of Fire Commissioners No. 4's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**

Board of Fire Commissioners
Jackson Board of Fire Commissioners No. 4:

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States and audit requirements as prescribed by the Local Finance Board and by the Division of Local Government Services, Department of Community Affairs, State of New Jersey, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Jackson Board of Fire Commissioners No. 4, as of and for the year ended December 31, 2014, and the related notes to the financial statements, which collectively comprise Jackson Board of Fire Commissioners No. 4's basic financial statements, and have issued our report thereon dated February 26, 2015.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Jackson Board of Fire Commissioners No. 4's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Jackson Board of Fire Commissioners No. 4's internal control. Accordingly, we do not express an opinion on the effectiveness of Jackson Board of Fire Commissioners No. 4's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Jackson Board of Fire Commissioners No. 4's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and audit requirements as prescribed by the Division of Local Government Services, Department of Community Affairs State of New Jersey.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

USING THIS ANNUAL REPORT

This annual report consists of a series of financial statements. Jackson Township Fire District No. 4's basic financial statements are comprised of three components: district-wide financial statements; fund financial statements; and notes to the basic financial statements.

Reporting on the District as a Whole

Our analysis of the District as a whole begins on page 7. District-wide financial statements are provided to give the reader a broad overview of the District's financial position and its financial activity for the year. It is presented in a format similar to the private sector to give the reader a familiar point of reference.

The Statement of Net Position presents information on all the assets and liabilities of Jackson Township Fire District No. 4. The difference between the assets and liabilities is reported as the District's net position. Significant increases or decreases in the District's net position can be an indication of the financial health of the District. The Statement of Activities presents financial information about activities that result in the District's net position increasing or decreasing during the year. Financial activities are recorded when the transactions occur rather than when the cash is received or disbursed. As a result, there could be activities that result in cash flow in a future period.

The district-wide financial statements report on the financial data by function. Jackson Township Fire District No. 4 has two basic functions: activities that are supported by property taxes; and activities supported by other governmental activities. Jackson Township Fire District No. 4 provides firefighting services to the citizens of Jackson Township. The District also provides services for the enforcement of the state and local fire codes and fire prevention education.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. Like other state and local governments, Jackson Township Fire District No. 4 uses fund accounting to document compliance with finance-related legal matters. Jackson Township Fire District No. 4 has two types of fund groups, and that is governmental funds and fiduciary funds.

Governmental Funds

Jackson Township Fire District No. 4's activities are all reported in governmental funds. These funds record the flow of cash in and out of the District during the period and the balances remaining at year end for future periods. The modified accrual basis of accounting is utilized for reporting purposes. This method of accounting measures cash and all other financial assets that can be converted to cash. The governmental fund statements provide a detailed short-term view of the District's general government operations and the basic services that it provides. Governmental fund information helps the reader determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's services.

Jackson Township Fire District No. 4 maintains three separate government funds, the General Fund, the Debt Service Fund, and the Capital Projects Fund. Information is presented in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund and the capital fund.

The relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is described in a reconciliation at the bottom of the fund financial statements.

As required by N.J.S.A. 40A:14:78-3, Jackson Township Fire District No. 4 adopts an annual budget which is voted on by the legal voters of the district on the third Saturday in February. Budgetary comparison schedules have been prepared to document compliance with budgetary requirements.

Fiduciary Funds

Fiduciary funds are used to account for assets held by the District on behalf of outside third parties, or other funds within the District. There are two fiduciary funds in the District. One is the Payroll Agency which is used for the payment of wages and payroll liabilities. The second fiduciary fund is the Length of Service Award Program (LOSAP). LOSAP is an annuity program for the volunteer firefighters (see Note 10).

Notes to Financial Statements

The notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the district-wide and fund financial statements. The notes to the financial statements are an integral part of the financial statements.

DISTRICT-WIDE FINANCIAL ANALYSIS

Jackson Township Fire District No. 4's net position is a useful indicator of the District's financial condition. At the end of 2014, the District's assets exceeded its liabilities by approximately \$3.84 million. The largest portion of Jackson Township Fire District No. 4's net position (59.8%) is its investment in capital assets. The District uses these assets to provide fire-fighting services to the community; consequently, these assets are not available for future spending. Jackson Township Fire District No. 4's investment in capital assets is reported net of related debt. Since the capital assets are not available to liquidate the debt, other sources must be utilized for the repayment of the debt. As of December 31, 2014 the District had no long term debt.

Property tax revenue constituted 95% of the total governmental activities revenues received by Jackson Township Fire District No. 4 in 2014. In 2013 the property tax revenue constituted 94% of total revenues.

The Cost of Operations & Maintenance was 90% and 92% of the District's total expenses in 2014 and 2013 respectively. Administration expenses equaled 10% and 8% of the total expenses in 2014 and 2013 respectively.

FINANCIAL ANALYSIS OF THE GOVERNMENT FUNDS

Jackson Township Fire District No. 4 uses fund accounting to document compliance with finance-related legal requirements.

Government Fund

The primary objective of the District's governmental funds is to report on cash flows in and out during the period and the ending balances of the spendable resources. This information is useful to evaluate the performance of the District and to assess its future needs and available resources.

As of December 31, 2014, the combined balance of the governmental cash and investment funds of Jackson Township Fire District No. 4 was approximately \$1,595,300. This balance is approximately \$315,100 lower than last year's combined governmental funds balance. The decrease is due primarily to the purchase of apparatus generated in capital appropriation and transfer from LOSAP.

The combined fund balance of the governmental funds of Jackson Township Fire District No. 4 was approximately \$1,579,100. Unreserved fund balance amounted to approximately \$910,800 of that total. Funds have not been designated for use in the 2015 Budget. Funds in the amount of approximately \$98,300 have been designated for additional 2014 purchase orders (encumbrances).

The general fund is the main operating fund of Jackson Township Fire District No. 4. At the end of 2014, the total fund balance of the general fund was approximately \$996,500. Of this balance, \$85,617 was committed for other purposes and \$910,848 was unreserved.

During 2014 the general fund balance of Jackson Township Fire District No. 4 increased by approximately \$155,800. The primary reasons for this increase are as follows:

- The Board expended less funds than they received in revenues by approximately \$155,800.

At the end of 2014, the District had a capital projects fund balance of approximately \$582,600. This balance decreased from 2013 by approximately \$499,200. The major change in this fund balance was:

- A capital appropriation from the general fund of \$100,000.
- The Board purchased fire apparatus for approximately \$626,600.

General Fund Budgetary Highlights

In 2009 the Board assumed the responsibilities of the Uniform Fire Safety Act (UFSA) in the District. UFSA revenues are a factor of enforcement. The fees charged in 2014 were approximately 1.8% of the operating revenues.

The 2014 Budget had revenues equal to expenditures and did not require the utilization of unrestricted surplus accumulated from prior years. The unused surplus becomes available for future budget periods as undesignated surplus in the General Fund.

The District had total actual revenues in excess of budgeted revenues of approximately \$54,000 in 2014. Any excess in 2015 is expected to be similar.

Overall, the District spent approximately \$265,300 less than originally anticipated in the budget for 2014.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

As of December 31, 2014 Jackson Township Fire District No. 4 had invested in capital assets for government activities of approximately \$2,293,800 (net of accumulated depreciation). Capital assets consist of firehouse improvements, fire apparatus, fire equipment, and office equipment. They purchased approximately \$707,900 of equipment and apparatus in 2014.

Additional information on Jackson Township Fire District No. 4’s capital assets can be found in note 6 in the notes to the financial statements.

Long-Term Obligations

The District had no long term debt at December 31, 2014.

ECONOMIC FACTORS AND NEXT YEARS BUDGET

In 2014, Jackson Township Fire District No. 4 was able to cover all its appropriations through the fire tax levy and other revenues. In 2014 the fire tax levy amounted to 95% of total revenue collected.

Jackson Township Fire District No. 4 adopted their 2015 budget on January 8, 2015. The voters subsequently voted to approve the budget at the February election. The 2015 adopted budget reflected an increase in the tax levy of \$11,705. The Board anticipates no significant change in the fire tax rate. It is projected that a family with a home assessed at \$250,000 will pay approximately \$168 in 2015 for fire protection.

REQUESTS FOR INFORMATION

FIRE DISTRICT NO. 4 OF THE TOWNSHIP OF JACKSON
Notes to Financial Statements
For the year ended December 31, 2014

NOTE 1: GENERAL INFORMATION

A. Description of Reporting Entity

Fire District No. 4 of the Township of Jackson is a political subdivision of the Township of Jackson, County of Ocean, State of New Jersey. A board of five commissioners oversees all of the operations of the Fire District. The length of each commissioner's term is three years with the annual election held the third Saturday of every February.

Fire Districts are governed by the *N.J.S.A. 40A: 14-70* et al. and are taxing authorities charged with the responsibility of providing the resources necessary to provide fire fighting services to the residents within its territorial location.

Fire District No. 4 of the Township of Jackson is not a component unit of any other financial reporting entity nor does the Fire District have any component units to be presented in accordance with Governmental Accounting Standards Board Statement No. 14.

B. District Officials

The District is governed by a board of five commissioners. The following were in office at December 31, 2014:

<u>Officials</u>	<u>Term Expires</u> <u>March</u>
John Bollentin	2015
Richard Leonard Jr.	2016
Brian Ruditsky	2017
John Sherry	2015
Raymond Torres Jr.	2017

C. Accounting Records

The official accounting records of the Fire District No. 4 of the Township of Jackson are maintained in the office of the District.

D. Minutes

Minutes were recorded for meetings and contained approvals for disbursements.

E. Component Units

The primary criterion for including activities within the District's reporting entity, as set forth in Section 2100 of the GASB *Codification of Governmental Accounting and Financial Reporting Standards*, is whether:

- ◆ the organization is legally separate (can sue or be sued in their own name)
- ◆ the District holds the corporate powers of the organization

FIRE DISTRICT NO. 4 OF THE TOWNSHIP OF JACKSON
Notes to Financial Statements (continued)
For the year ended December 31, 2014

NOTE 1: GENERAL INFORMATION (continued)

E . Component Units (continued)

- ◆ the District appoints a voting majority of the organization's board
- ◆ the District is able to impose its will on the organization
- ◆ the organization has the potential to impose a financial benefit/burden on the District
- ◆ there is a fiscal dependency by the organization on the District

Based on the aforementioned criteria, the District has no component units.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Basis of Presentation

The financial statements of the Fire District conform to generally accepted accounting principles (GAAP) applicable to governmental funds of state and local governments in accordance with the provisions of N.J.A.C. 5:31-7-1. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the Board's accounting policies are described below.

The basic financial statements report using the economic resources measurement focus and the accrual basis of accounting generally includes the reclassification or elimination of internal activity (between or within funds). Fiduciary fund financial statements also report using the same focus. Revenues are recorded when earned and expenses are recorded when the liability is incurred, regardless of the timing of the related cash flows. The tax revenues are recognized in the year for which they are levied (see Note 2 P) while grants are recognized when grantor eligibility requirements are met.

Governmental fund financial statements report using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized when they are both measurable and available. Available means collectible within the current period or soon thereafter, within 60 days of the end of the fiscal year. Expenditures are recorded when the related fund liability is incurred.

B. Fund Accounting

The accounts of the district are maintained in accordance with the principles of fund accounting to ensure observance of limitations and restrictions on the resources available. The principles of fund accounting require that resources be classified for accounting and reporting purposes into funds or account groups in accordance with activities or objectives specified for the resources. Each fund is a separate accounting entity with a self-balancing set of accounts. An account group, on the other hand, is a financial reporting device designed to provide accountability for certain assets and liabilities that are not recorded in the funds because they do not directly affect net expendable available financial resources. Funds are classified into three categories: governmental, proprietary and fiduciary. Each category, in turn is divided into separate "fund types."

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

B. Fund Accounting (continued)

Governmental Funds:

General Fund

The General Fund is the general operating fund of the Fire District and is used to account for the inflows and outflows of financial resources. The acquisition of certain capital assets, such as fire fighting apparatus and equipment, is accounted for in the General Fund when it is responsible for the financing of such expenditures.

Capital Projects Fund

The Capital Projects Fund is used to account for financial resources to be used for the acquisition or construction of major capital facilities such as firehouses and firefighting apparatus. Generally, the financial resources of the Capital Projects Fund are derived from the issuance of debt or by the reservation of fund balance, which must be authorized by the voters as a separate question of the ballot either during the annual election or at a special election.

Debt Service Fund

The Debt Service Fund is used to account for resources that will be used to service general long-term debt.

Fiduciary Funds:

Fiduciary funds are used to account for assets held by a governmental entity for other parties (either as trustee or as an agent) and that cannot be used to finance the governmental entity's own operating programs which includes private purpose trust funds and agency funds.

Trust and Agency Fund

The Trust and Agency Fund is used to account for assets held by the Fire District on behalf of outside parties, including other governments, or on behalf of other funds within the Fire District.

C. District Wide and Fund Financial Statements

District Wide Financial Statements

The district-wide financial statements (A-1 and A-2) report information of all of the nonfiduciary activities of the District. For the most part, the effect of interfund activity has been removed from these district-wide statements. District activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a

C. District Wide and Fund Financial Statements (continued)

significant extent on fees and charges for support. Individual funds are not displayed but the statements distinguish governmental activities as generally supported through taxes and user fees.

The statement of activities demonstrates the degree to which the direct expenses of a given function, segment or component unit are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function, segment, or component unit. Program revenues include charges to customers who purchase, use or directly benefit from goods or services provided by a given function, segment or component unit. Program revenues also include grants and contributions that are restricted to meeting the operational or capital requirements of a particular function, segment, or component unit. Taxes and other items not properly included among program revenues are reported instead as general revenues. The District does not allocate general government (indirect) expenses to other functions.

Net position is restricted when constraints placed on it is either externally imposed or imposed by constitutional provisions or enabling legislation. Internally imposed designations of resources are not presented as restricted net position. When both restricted and unrestricted resources are available for use, generally it is the District's policy to use restricted resources first, and then unrestricted resources as they are needed.

Separate financial statements are provided for governmental funds, proprietary funds, fiduciary funds and similar component units, and major component units. However, the fiduciary funds are not included in the district-wide statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

The district-wide financial statements (A-1 and A-2) include the statement of net position and the statement of activities. These statements report financial information of the District as a whole excluding the fiduciary activities. All inter-fund activity, excluding the fiduciary funds, has been eliminated in the statement of activities. Individual funds are not displayed but the statements distinguish governmental activities as generally supported through taxes and user fees.

Fund Financial Statements

The fund financial statements provide detail of the governmental and fiduciary funds.

D. Basis of Accounting

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental funds and private purpose trust funds are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements of these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net position.

FIRE DISTRICT NO. 4 OF THE TOWNSHIP OF JACKSON
Notes to Financial Statements (continued)
For the year ended December 31, 2014

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

D. Basis of Accounting (continued)

The modified accrual basis of accounting is used for measuring financial position and operating results of all governmental fund types, private purpose trust funds and agency funds. Under the modified accrual basis of accounting, revenues are recognized when they become both measurable and available. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. State equalization monies are recognized as revenue during the period in which they are appropriated. A one-year availability period is used for revenue recognition for all other governmental fund revenues. Expenditures are recognized in the accounting period in which the fund liability is incurred, except for principal and interest on general long-term debt which are recorded when due.

In its accounting and financial reporting, the Jackson Board of Fire Commissioners No. 4 follows the pronouncements of the Governmental Accounting Standards Board (GASB) and the pronouncements of the Financial Accounting Standards Board (FASB) and its predecessor organizations issued on or before November 30, 1989, unless they conflict with or contradict GASB pronouncements. The Jackson Board of Fire Commissioners No. 4's proprietary funds have elected not to apply the standards issued by FASB after November 30, 1989.

E. Budgets and Budgetary Accounting

The Fire District must adopt an annual budget in accordance with N.J.S.A. 40A: 14-78.1 et al.

The fire commissioners must introduce and adopt the annual budget no later than sixty days prior to the annual election. At introduction, the commissioners shall fix the time and place for a public hearing on the budget and must advertise the time and place at least ten days prior to the hearing in a newspaper having substantial circulation in the fire district. The public hearing must not be held less than twenty-eight days after the date the budget was introduced. After the hearing has been held, the fire commissioners may, by majority vote, adopt the budget.

Amendments may be made to the Fire District budget in accordance with N.J.S.A 40A: 14-78.3.

Subsequent to the adoption of the Fire District budget, the amount of money to be raised by taxation in support of the Fire District budget must appear on the ballot for the annual election for approval of the legal voters.

Fire Districts have a prescribed budgetary basis to demonstrate legal compliance. However, budgets are adopted on principally the same basis of accounting utilized for the preparation of the Fire Districts general-purpose financial statements.

F. Encumbrances

Under encumbrance accounting, purchase orders, contracts and other commitments for the expenditure of resources are recorded to reserve a portion of the applicable appropriation. Open encumbrances, other than in the special revenue fund, are reported as reservations of fund balances

at year-end as they do not constitute expenditures or liabilities but rather commitments related to unperformed contracts for goods and services.

Encumbered appropriations carry over into the next fiscal year. An entry will be made at the beginning of the next year to increase the appropriation reflected in the adopted budget by the outstanding encumbrance amounts as of the current year-end. The encumbrances at December 31, 2014 totaled \$85,617 in the general fund and \$12,696 in the capital projects fund.

G. Cash and Cash Equivalents and Investments

Cash and cash equivalents include petty cash, change funds and cash in banks. Fire Districts are required by N.J.S.A. 40A: 5-14 to deposit public funds in a bank or trust company having its place of business in the State of New Jersey organized under the laws of the United States or of the State of New Jersey or with the New Jersey Cash Management Fund. N.J.S.A. 40A: 5-15.1 provides a list of investments that may be purchased by fire districts.

N.J.S.A. 17:9-42 requires New Jersey governmental units to deposit public funds only in public depositories located in New Jersey, where the funds are secured in accordance with the provision of the Governmental Unit Deposit Protection Act (“GUDPA”). GUDPA was enacted in 1970 to protect governmental units from a loss of funds on deposit with a failed banking institution in the State of New Jersey.

Public funds are defined as the funds of any governmental unit. Public depositories include savings and loan institutions, banks (both State and National banks) and savings banks the deposits of which are federally insured. All public depositories must pledge collateral, having a market value of five percent of its average daily balance of collected public funds, to secure the deposits of governmental units. If the public depository fails, the collateral it has pledged, plus the collateral of all other public depositories, is available to pay the full amount of their deposits to the governmental units.

H. Inventories and Prepaid Expenses

Inventories and prepaid expenses, which benefit future periods, are recorded as expenditures during the year of purchase.

I. Debt Limitation

N.J.S.A.40A:14-84 governs procedures for the issuance of any debt related to such purchases. In summary, fire districts may purchase fire fighting apparatus, equipment, land and buildings to house such property in an amount not exceeding 5 mills on the dollar of the last assessed valuation of property within the district upon the approval of the legal voters. Debt may be issued up to \$60,000 or 2 percent of the assessed valuation of property, whichever is larger.

J. Capital Assets

Capital assets, which include land, building, improvements, and equipment, are reported in the Government-Wide Financial Statements. Capital assets are recorded at historical cost or estimated historical cost if actual cost is not available. Donated assets are valued at their estimated fair value on the date donated. The District has set capitalization thresholds for reporting capital assets of \$2,000.

Depreciation is recorded on the straight-line method (with no depreciation applied to the first year of acquisition) over the useful lives of the assets as follows:

Building and Improvements	10 to 25 Years
Equipment	5 to 15 Years
Vehicles and Apparatus	5 to 25 Years

K. Inventory, Materials and Supplies

The inventory on hand at any time is small. Accordingly, purchases are charged directly to fixed assets or to maintenance costs, as applicable.

L. Interfund Receivable/Payable

Interfund receivables and payables that arise from transactions between funds that are due within one year are recorded by all funds affected by such transactions in the periods in which the transaction is executed.

M. Compensated Absences

Fire District employees are entitled to vacation and sick leave. Unused vacation and sick leave may be accumulated up to a maximum payment of \$15,000. Benefits paid in any future year will be calculated according to formulas outlined in the Fire District's agreement with the employee's union and included in the current year's budget.

The liability for vested compensated absences is recorded as a non-current liability in the governmental activities fund. The current portion of the compensated absence balance is not considered material to the applicable fund's total liabilities, and is therefore not shown separately from the long-term liability balance of compensated absences.

N. Revenues and Expenditures

Revenues are recorded when they are determined to be both available and measurable. Generally, fees and other non-tax revenues are recognized when qualifying expenditures are incurred.

Expenditures are recorded when the related liability is incurred, if measurable, except for un-matured interest on general long-term debt, which is recognized when due.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

O. Fire District Taxes

Upon proper certification to the assessor of the municipality in which the Fire District is located, the assessor shall assess the amount of taxes to be realized in support of the Fire District's budget in the same manner as all other municipal taxes. The collector or treasurer of the municipality shall then pay over to the treasurer or custodian of funds of the Fire District the taxes assessed in accordance with the following schedule: on or before April 1, an amount equaling 21.25% of all monies assessed, on or before July 1, an amount equaling 22.5% of all monies assessed, on or before October 1, an amount equaling 25% of all monies assessed, and on or before December 31 an amount equal to the difference between the total of all monies assessed and the total of monies previously paid over.

P. Fund Equity

In accordance with Government Accounting Standards Board 54, Fund Balance Reporting and Governmental Fund Type Definitions, the Fire District No. 4 of the Township of Jackson classifies governmental fund balances as follows:

- Non-spendable – includes fund balance amounts that cannot be spent either because it is not in spendable form or because legal or contractual constraints.
- Restricted – includes fund balance amounts that are constrained for specific purposes which are externally imposed by external parties, constitutional provision or enabling legislation.
- Committed – includes fund balance amounts that are constrained for specific purposes that are internally imposed by the government through formal action of the highest level of decision making authority and does not lapse at year-end.
- Assigned – includes fund balance amounts that are intended to be used for specific purposes that are neither considered restricted or committed. Fund Balance may be assigned by the Business Administrator.
- Unassigned – includes balance within the General Fund which has not been classified within the above mentioned categories and negative fund balances in other governmental funds

Reserves represent those portions of fund equity not available for appropriation for expenditure or legally segregated for a specific future use. Designated fund balances represent plans for future use of financial resources.

Q. Net Position

Net position, represents the difference between summation of assets and deferred outflows of resources, and the summation of liabilities and deferred inflows of resources. Net position is classified in the following three components:

- Net Investment in Capital Assets – This component represents capital assets, net of accumulated depreciation, net of outstanding balances of borrowings used for acquisition, construction, or improvement of those assets.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Q. Net Position (continued)

- Restricted – Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.
- Unrestricted – Net position is reported as unrestricted when it does not meet the criteria of the other two components of net position.

R. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

S. Impact of Recently Issued Accounting Principles

Recently Issued and Adopted Accounting Pronouncements

In March 2012, the GASB issued Statement 66, *Technical Corrections—2012*—an amendment of GASB Statements No. 10 and No. 62. GASB 66 improves accounting and financial reporting for a governmental financial reporting entity by resolving conflicting guidance that resulted from the issuance of two pronouncements, Statements No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, and No. 62, *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements*. This Statement is effective for periods beginning after December 15, 2012 although the District elected to early implement Statement 62 in fiscal year 2012. The adoption of GASB 66 does not have any impact on the District's financial statements.

In March 2012, the GASB issued Statement 65, *Items Previously Reported as Assets and Liabilities*. GASB 65 establishes accounting and financial reporting standards that reclassify, as deferred outflows of resources or deferred inflows of resources, certain items that were previously reported as assets and liabilities. This Statement is effective for periods beginning after December 15, 2012. The adoption of GASB 65 does not have any impact on the District's financial statements.

In June 2012, the GASB issued Statement 68, *Accounting and Financial Reporting for Pensions—an amendment of GASB Statement 27*. GASB 68 improves accounting and financial reporting by state and local governments for pensions. It also improves information provided by state and local governmental employers about financial support for pensions that is provided by other entities. This Statement results from a comprehensive review of the effectiveness of existing standards of accounting and financial reporting for pensions with regard to providing decision-useful information, supporting assessments of accountability and inter-period equity, and creating additional transparency. This Statement is effective for fiscal years beginning after June 15, 2014. Management is currently evaluating the impact of the adoption of this statement on the District's financial statements.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

T. Unrealized Gains and Losses

Governmental Accounting Standards Board (GASB) has established GASB-31, which requires public agencies to report the financial effect of all unrealized gains and losses on invested funds. As of December 31, 2014, the unrealized gains for the Fire District were not considered to be material to the financial statements taken as a whole, and accordingly, have not been reflected in the financial statements.

U. Fair Value Measurement

The District categorizes its assets and liabilities measured at fair value into a three-level hierarchy based on the priority of the inputs to the valuation technique used to determine fair value. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level I) and the lowest priority to unobservable inputs (Level III). If the inputs used in the determination of the fair value measurement fall within different levels of the hierarchy, the categorization is based on the lowest level input that is significant to the fair value measurement. Assets and liabilities valued at fair value are categorized based on the inputs to the valuation techniques as follows:

Level I – Inputs that utilize quoted prices (unadjusted) in active markets for identical assets or liabilities that the District has the ability to access. Fair values for these instruments are estimated using pricing models or quoted prices of securities with similar characteristics.

Level II – Inputs that include quoted market prices for similar assets and liabilities in active markets and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

Level III – Inputs that are unobservable inputs for the asset or liability, which are typically based on an entity's assumptions, as there is little, if any, related market activity. Fair values for these instruments are estimated using appraised values. Subsequent to initial recognition, the District may re-measure the carrying value of assets and liabilities measured on a nonrecurring basis to fair value. Adjustments to fair value usually result when certain assets are impaired. Such assets are written down from their carrying amounts to their fair value.

The following methods and assumptions were used by the District in estimating the fair value of its financial instruments:

Mutual funds: Valued at the net asset value (NAV) of shares held by the plan at year end.

Certificate of Deposit: Valued at the net asset value (NAV) at year end when the NAV is valued at \$1 per unit.

Fixed Account Investment Contract: Valued at the contract's market value as reported by the insurance company.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

U. Fair Value Measurement (continued)

The preceding methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The table on page 35 sets forth by level, within the fair value hierarchy, the LOSAP's assets at fair value as of December 31, 2014.

V. Subsequent Events

Jackson Board of Fire Commissioners No. 4 has evaluated subsequent events occurring after December 31, 2014 through the date of February 26, 2015, which is the date the financial statements were available to be issued.

NOTE 3: CASH

The Fire District is governed by the deposit and investment limitations of New Jersey state law. The deposits and investments held at December 31, 2014, and reported at fair value are as follows:

<u>Type</u>	<u>Carrying Value</u>
Deposits:	
Demand deposits	\$ <u>504,008</u>
Total deposits	\$ <u>504,008</u>
Reconciliation to Governmental and Fiduciary Fund Statements:	
Governmental Funds	\$ 487,029
Fiduciary Funds	<u>16,979</u>
Total	\$ <u>504,008</u>

Custodial Credit Risk

Custodial credit risk is the risk that, in the event of a bank failure, the District's deposits may not be returned. The District does not have a deposit policy for custodial credit risk. As of December 31, 2014, the District's bank balance of \$557,921 was insured or collateralized as follows:

Insured	\$ 250,000
Collateralized in the District's name under GUDPA	<u>307,921</u>
Total	\$ <u>557,921</u>

FIRE DISTRICT NO. 4 OF THE TOWNSHIP OF JACKSON
Notes to Financial Statements (continued)
For the year ended December 31, 2014

NOTE 4: INVESTMENTS

A. Custodial Credit Risk

For an investment, custodial credit risk is a risk that, in the event of the failure of the counterparty, the Fire District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the Fire District, and are held by either the counterparty or the counterparty's trust department or agent but not in the Fire District's name. All of the District's investments are held in the name of the District and are collateralized by GUDPA.

B. Investment Interest Rate Risk

Interest rate risk is the risk that changes in interest rates that will adversely affect the fair value of an investment. The Fire District has no formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. Maturities of investments held at December 31, 2014, are provided in the below schedule.

C. Investment Credit Risk

The Fire District has no investment policy that limits its investment choices other than the limitation of state law as follows:

- Bonds or other obligations of the United States of America or obligations guaranteed by the United States of America;
- Government money market mutual funds;
- Any obligation that a federal agency or federal instrumentality has issued in accordance with an act of Congress, which security has a maturity date not greater than 397 days from the date of purchase, provided that such obligations bear a fixed rate of interest not dependent on any index or other external factor;
- Bonds or other obligations of the Fire District or bonds or other obligations of the local unit or units within which the Fire District is located;
- Bonds or other obligations, having a maturity date of not more than 397 days from the date of purchase, approved by the Division of Investment in the Department of Treasury for investment by the Fire District;
- Local Government investment pools;
- Deposits with the State of New Jersey Cash Management Fund established pursuant to section 1 of P.L. 1977, c.281; or
- Agreements for the repurchase of fully collateralized securities.

NOTE 9: PENSION

A. Plan Description

Jackson Board of Fire Commissioners No. 4 contributes to a cost-sharing multiple-employer defined benefit pension plan, the Police and Fireman’s Retirement System (P.F.R.S.), administered by the State of New Jersey, Division of Pensions and Benefits. It provides retirement, disability, medical and death benefits to plan members and beneficiaries.

The State of New Jersey P.F.R.S. program as established as of July 1, 1944. The program was established under the provisions of N.J.S.A.43:16A, which assigns authority to establish and amend, benefit provisions to the plans’ board of trustees. P.F.R.S. issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to: State of New Jersey, Department of Treasury, Division of Pensions and Benefits, P.O. Box 295, Trenton, NJ 08625, or calling (609) 984-1684.

B. Contribution Requirements

The contribution requirements of plan members are determined by State statute. In accordance with Chapter 204, P.L. 1989, plan members enrolled in the Police and Firemen’s Retirement System are required to contribute 8.5% of their annual covered salary. Pursuant to the provisions of Chapter 78, P.L. 2011, the active member contribution rate increased to 10.0% in October, 2011. The State Treasurer has the right under the current law to make temporary reductions in

2012	25,084	21,173	2,391	48,648	48,648

NOTE 10: LENGTH OF SERVICE AWARDS PROGRAM

The District has a contractual agreement with volunteer firefighters to reward them based on length of continued service. This is not a pension plan as described under the Employee Retirement Security Act, and therefore is not guaranteed to the volunteers until they reach the age 65.

The contribution for the year ended December 31, 2013 and paid in the fiscal year ended December 31, 2014 is \$73,546.

NOTE 11: INTERFUND RECEIVABLE/PAYABLE

As of December 31, 2014, the following inter-fund balances remained on the balance sheet:

<u>Fund</u>	<u>Interfund Receivable</u>	<u>Interfund Payable</u>
General	\$ 542,598	\$ 4,451

NOTE 12: FUNDING

The activities of the fire district are primarily funded by the striking of the fire tax on the property owners of the fire district, as provided for by the state statute. For the year ended December 31, 2014, the fire tax rate on the Fire District No. 4 was approximately \$.068 per \$100 of assessed valuation.

The tax revenue is supplemented by income earned on surplus funds invested in a money market fund and investments during the year. The District also participates in the Supplemental Fire Services Program and received a basic entitlement grant of approximately \$3,257. As a condition of this grant, the Board must match the grant by 10%.

NOTE 13: FUND BALANCE

General Fund – Of the \$996,465 General Fund fund balance at December 31, 2014, \$85,617 is committed for other purposes and \$910,848 is unassigned.

Capital Projects Fund – Of the \$582,612 Capital Projects Fund fund balance at December 31, 2014, \$12,696 is committed for other purposes and \$569,916 is restricted for Capital.

Board of Fire Commissioners
Fire District No. 4 of the Township of Jackson
Jackson, New Jersey 08527

We have audited the basic financial statements of the Fire District No. 4 of the Township of Jackson, County of Ocean, State of New Jersey for the year ended December 31, 2014. In accordance with requirements prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey, the following are the *General Comments* and *Recommendations* for the year then ended.

GENERAL COMMENTS

Contracts and Agreements Required to be Advertised by (N.J.S.A.40A:11-4)

N.J.S.A.40A:11-4 - Every contract or agreement, for the performance of any work or furnishing or hiring of any materials or supplies, the cost or the contract price whereof is to be paid with or out of public funds not included within the terms of Section 3 of this act, shall be made or awarded only by the governing body of the contracting unit after public advertising for bids and bidding therefore, except as is provided otherwise in this act or specifically by any other Law. No work, materials or supplies shall be undertaken, acquired or furnished for a sum exceeding in the aggregate \$36,000, except by contract or agreement.

It is pointed out that the Board of Fire Commissioners has the responsibility of determining whether the expenditures in any category will exceed the statutory minimum within the fiscal year. Where question arises as to whether any contract or agreement might result in violation of the statute, the solicitor's opinion should be sought before a commitment is made.

The minutes indicate that resolutions were adopted authorizing the awarding of contracts or agreements for "Professional Services," per *N.J.S.A.40A:11-5*.

Inasmuch as the system of records did not provide for an accumulation of payments for categories for the performance of any work or the furnishing or hiring of any materials or supplies, the results of such an accumulation could not reasonably be ascertained. Disbursements were reviewed, however, to determine whether any clear-cut violations existed.

Contracts and Agreements Requiring Solicitation of Quotations

The examination of expenditures did not reveal any individual payments, contracts or agreements in excess of \$5,400 "for the performance of any work or the furnishing or hiring of any materials or supplies", other than those where bids had been previously sought by public advertisement or where a resolution had been previously adopted under the provision of (*N.J.S.A.40A:11-6.1*).

Examination of Investments

An examination of investments held by the District was conducted to ensure all certificate of deposit balances as stated on the general ledger were accurate.

Examination of Bills

A test check of paid bills was made and each bill, upon proper approval, was considered as a separate and individual contract unless the records disclosed it to be a part payment or estimate.

Acknowledgment

We received the complete cooperation of all the staff of the District and we greatly appreciate the courtesies extended to the members of the audit team.

During our review, we did not note any problems or weaknesses significant enough that would affect our ability to express an opinion on the financial statements taken as a whole.
